## **Disclaimer**

## Statement Regarding Safe Harbor for Forward-Looking Statements

This presentation may contain forward-looking statements – that is, information related to future, not past, events. Like other businesses, Martin Marietta is subject to risks and uncertainties which could cause its actual results to differ materially from its projections or that could cause forward-looking statements to prove incorrect, including the risks and uncertainties discussed in Martin Marietta's most recent Annual Report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, which have been filed with the Securities and Exchange Commission and are readily available on the Internet at <u>www.sec.gov</u>. Except as legally required, Martin Marietta undertakes no obligation to publicly update or revise any forward-looking statements, whether resulting from new information, future developments or otherwise.

### **Non-GAAP Financial Terms**

These slides contain certain "non-GAAP financial terms" which are defined in the Appendix. Reconciliations of non-GAAP terms to the closest GAAP term are also provided in the Appendix.

| Financial Impact            | <ul> <li>Immediately accretive<sup>1</sup></li> </ul>  |
| Capital Allocation Priority | <ul> <li>Strategic opportunities</li> </ul>  |

1 Assumes current interest rates.

#### CAPITAL ALLOCATION

Quarterly assessment of excess free cash flow<sup>1</sup> and leverage constraint

Cash flow from TXIrelated non-strategic, non-operating assets

Capital allocation to share repurchase

Consideration of other capital needs/objectives

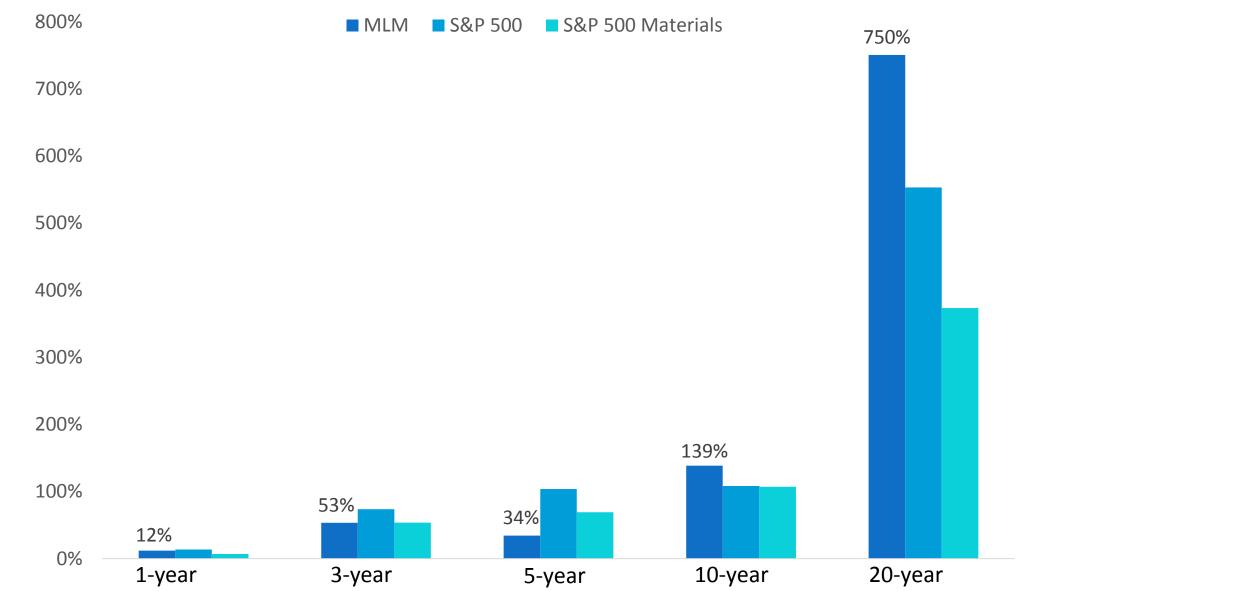

Repurchase Deployment

1 Excess free cash flow is defined as free cash flow after capital expenditures and dividend payments

#### **Shareholder Returns Deliver Value**

Note: Total return inclusive of dividends as of December 31, 2014

#### VALUE CREATION

### Foundation. Transformation. Value.

- In recovery, operating performance, cash flow generation and shareholder returns should improve notably
- Business model generates sufficient free cash flow to support the strategic objectives of the business and provide financial flexibility
- Return on invested capital increases
   over the near term
- Excess free cash flow share repurchases accelerate returns

## **APPENDIX**

#### **Non-GAAP** Measures

EBITDA is a widely accepted financial indicator of a company's ability to service and/or incur indebtedness. EBITDA and adjusted EBITDA are not defined by GAAP and, as such, should not be construed as alternatives to net earnings or operating cash flow.

Adjusted earnings from operations and adjusted earnings per diluted share ("Adjusted EPS") for the year ended December 31, 2014, are non-GAAP measures which exclude the impact of TXI acquisition-related expenses, net, and the impact of the write-up of acquired inventory to fair value. The Corporation presents these measures to allow investors to analyze and forecast the Corporation's operating results and cash flows given that these costs are nonrecurring.

The following tables present (i) a reconciliation of net earnings attributable to Martin Marietta Materials, Inc. to consolidated EBITDA; and (ii) the reconciliations of adjusted earnings from operations and Adjusted EPS for the year ended December 31, 2014 to the nearest measures in accordance with GAAP.

## **APPENDIX**

#### Adjusted EPS & Percentage Increase

| year ended December 31  |   | 2014    | 2013    |   | Increase |
|---|---|---------|---------|---|----------|
| Earnings per diluted share in accordance with generally accepted accounting principles            |   | \$ 2.71 |         |   |          |
| Add back:   |   |         |         |   |          |
| Per diluted share impact of TXI acquisition-related expenses, net                                 |   | 0.91    |         |   |          |
| Per diluted share impact of selling acquired inventory due to markup to fair value                |   | 0.12    |         |   |          |
| Adjusted earnings per diluted share   |   | \$ 3.74 |         |   |          |
|   | Π |         |         | Τ |          |
| Earnings per diluted share in accorance with GAAP   | Π |         | \$ 2.61 |   |          |
|   | Π |         |         | Τ |          |
| Increase in adjusted earnings per diluted share in 2014 versus earnings per diluted share in 2013 | Π |         |         |   | 43%      |
|   | П |         |         |   |          |

#### Reconciliation of Net Earnings to EBITDA

| Reconciliation of Net Earnings to EBITDA                |            |            |            |            |           |            |            |            |            |            |            |            |           |            |            |            |            |            |            |           |            |           |           |           |                  |            |            | +-+          | $\vdash$            |           |
|---|------------|------------|------------|------------|-----------|------------|------------|------------|------------|------------|------------|------------|-----------|------------|------------|------------|------------|------------|------------|-----------|------------|-----------|-----------|-----------|------------------|------------|------------|--------------|---------------------|-----------|
