2012	\$ 223.56	0.8%
2013	\$ 230.27	3.0%
2014	\$ 240.63	4.5%

The price index presents pricing data in relation to 1986, which is the base year. Each year's price index represents the average sales price for the aggregates product line in relation to an assumed \$100 sales price in 1986, based on the cumulative price changes experienced by the Corporation from 1987 to 2014.
