Item 7. Financial Statements, Pro Forma Financial Information and Exhibits

(c) Exhibits

99.1 Press Release dated October 30, 2003, announcing financial results for the third quarter and nine months ended September 30, 2003.

99.2 Additional information about Non-GAAP Financial Measures available on the Corporation's Web site.

Item 9. Regulation FD Disclosure

On October 30, 2003, the Corporation announced financial results for the third quarter and nine months ended September 30, 2003. The press release, dated October 30, 2003, is furnished as Exhibit 99.1 to this report and is incorporated by reference herein. Additional information about the quarter, and the Corporation's use of non-GAAP financial measures, which is available on the Corporation's Web site at www.martinmarietta.com by clicking the heading "Financials", in the "Investors" section and then clicking the quick link "Non-GAAP Financial Measures", is furnished as Exhibit 99.2 to this report and is incorporated by reference herein.

The Corporation will host an online Web simulcast of its third-quarter 2003 earnings conference call on Thursday, October 30, 2003. The live broadcast of the Corporation's conference call will begin at 2 p.m., Eastern Time, on October 30, 2003. An online replay will be available approximately two hours following the conclusion of the live broadcast. A link to these events will be available at the Corporation's Web site at www.martinmarietta.com. For those investors without online web access, the conference call may also be accessed by calling 913-981-5571, confirmation number 799732. Additional information about the Corporation's use of non-GAAP financial measures, as well as certain other financial or statistical information the Corporation may present at the conference call, will be provided on the Corporation's Web site.

Item 12. Results of Operations and Financial Condition

On October 30, 2003, the Corporation announced financial results for the third quarter and nine months ended September 30, 2003. The press release, dated October 30, 2003, is furnished as Exhibit 99.1 to this report and is incorporated by reference herein.

The information in this report and the accompanying exhibits is being furnished under Item 9 and Item 12 and shall not be deemed to be "filed" for the purposes of Section 18 of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of such section, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

MARTIN MARIETTA MATERIALS, INC. ANNOUNCES THIRD-QUARTER RESULTS

NET EARNINGS INCREASE 17 PERCENT

RALEIGH, North Carolina (October 30, 2003) — Martin Marietta Materials, Inc. (NYSE:MLM), today reported financial results for the third quarter and nine months ended September 30, 2003. Third quarter net earnings of \$45.5 million, or \$0.93 per diluted share, increased 17 percent versus 2002 third quarter net earnings of \$38.9 million, or \$0.80 per diluted share. Operating cash flow was \$26 million, or 30 percent, higher than the prior-year period. During the quarter the company repaid its remaining \$34 million in commercial paper and overnight borrowings and ended the quarter with \$54 million in cash.

For the quarter, net sales were \$450.1 million and earnings from operations were \$74.7 million, increases of 8 and 9 percent, respectively, compared with the third quarter of 2002. Earnings were positively affected by increases in shipments in the majority of the Corporation's markets coupled with pricing increases. Improved operating efficiency favorably affected aggregates production costs resulting in cost per ton declining about 1 percent compared with the prior-year quarter. Other nonoperating income and expenses, net, was income of \$1.5 million in 2003 compared with an expense of \$0.5 million in the prior year.

MLM Reports Third-Quarter Results Page 2 October 30, 2003

Net sales for the first nine months of 2003 increased 3 percent to \$1.14 billion compared with \$1.10 billion for the year-earlier period. Year-to-date operating earnings were \$135.0 million in 2003 versus \$148.5 million in 2002. The Company posted an after-tax loss of \$0.8 million on discontinued operations in 2003 compared with an after-tax gain of \$8.4 million in 2002. The gain in 2002 was primarily related to previously announced divestitures in the Columbus, Ohio, and Culpeper and Spotsylvania, Virginia, areas. Inclusive of the effect of several accounting changes highlighted in the following sections, for the nine-month period ended September 30, 2003, net earnings were \$64.3 million, or \$1.31 per diluted share, compared with net earnings for the comparable prior-year period of \$70.2 million, or \$1.44 per diluted share.

MANAGEMENT COMMENTARY:

Stephen P. Zelnak, Jr., Chairman and CEO of Martin Marietta Materials, stated, "We are pleased with our performance in the third quarter. In particular, the efforts we have made in increasing our operating margin and our cash flow were clearly seen in our results. Better weather conditions, particularly in the Southeast, resulted in increased construction activity as our customers initiated backlog projects. Our cash management programs, especially in the areas of inventory control, coupled with higher earnings and the timing of tax payments, were significant contributors to the \$26 million increase in operating cash flow. Additionally, our Bahamas facility has maintained the strong shipment levels noted during the second quarter and our other water transport operations provided a significant contribution to our earnings.

"Improved aggregates shipments allowed us to begin to realize the efforts of our cost reduction initiatives in our operating results. Unit production costs for heritage aggregates facilities for the quarter were down about 1 percent when compared with the same period in 2002, despite higher per gallon diesel fuel costs and the continued impact of underabsorption of fixed costs resulting from inventory control. Excluding the effect of acquisitions and divestitures, the aggregates product line gross margin improved 130 MLM Reports Third-Quarter Results Page 3 October 30, 2003

basis points while our Aggregates Division reported a 50-basis-point improvement in its gross margin. However, we experienced declining margins in our vertically integrated asphalt products, based on low volumes and high liquid asphalt cost.

"Selling, general and administrative expenses as a percentage of net sales declined during the quarter, despite rising pension and healthcare costs. The management efficiency and overhead cost reduction expected from our recently restructured Aggregates business is being currently realized. We expect overhead savings from the restructuring of approximately \$1.5 million in 2003 with full-year 2004 savings anticipated to be about \$4 million, which will help in offsetting the pressure of continuing increases in benefits and other costs.

"Our commitment to generate strong cash flow and reduce debt also is evident in the nine-month results. Debt-to-capitalization, net of available cash, was 36% on September 30, 2003, compared with 41% in the prior-year period. In addition to a reduction of \$30 million of debt, we also contributed \$21 million to our employees' pension plan, delivering on our commitments to our stakeholders and employees.

"The outlook for the Aggregates business for the remainder of 2003 hinges primarily on weather conditions in the fourth quarter. Assuming moderate conditions, we expect customers to continue to work against backlogs, which should generate positive operating results. We currently expect net earnings for the fourth quarter of 2003 to be in the range of \$0.45 to \$0.60 per diluted share.

"We continue to be encouraged by the progress of our structural composites technology and products, which offer weight reduction, corrosion resistance and other positive attributes compared with conventional materials. While we are analyzing and testing the use of structural composite materials across a wide variety of applications, we are focused on the production and commercialization of all-composite specialty trailers and composite sandwich flat panels in addition to the composite bridge decks we have already brought

MLM Reports Third-Quarter Results Page 4 October 30, 2003

to market. Our Sparta, North Carolina, facility is currently manufacturing specialty trailer subassemblies; full production for both specialty trailers and composite sandwich flat panels is expected to begin in November. In October, we began to receive orders for trailers to be used in the waste industry, and initial prototype specialty trailers should be produced in December. During the third quarter, we continued to assemble the production, sales and management team necessary to ramp up production in the fourth quarter and into 2004, which we expect to be our first full year of production. The start-up costs related to our structural composites business were \$1.7 million for the third quarter and \$3.3 million year-to-date. We will provide initial financial metrics to evaluate the growth and profitability of the structural composites business with our 2004 outlook."

OPERATING HIGHLIGHTS:

Net sales for the Aggregates division for the third quarter were \$428.1 million, a 7 percent increase over 2002 third quarter sales of \$400.0 million. Aggregates volume at heritage locations was up 6 percent while pricing increased 2 percent. Inclusive of acquisitions and divestitures, aggregates pricing increased 2.3 percent and aggregates shipments increased 4.2 percent. The division's earnings from operations for the quarter were \$73.9 million in 2003 versus \$67.2 million in the year-earlier period. Year-to-date net sales were \$1.07 billion versus \$1.04 billion in 2002. Earnings from operations on a year-to-date basis were \$132.1 million in 2003 compared with \$144.3 million in 2002. For the nine-month period ended September 30, 2003, heritage aggregates volume was essentially flat, while pricing was up 2 percent. Inclusive of acquisitions and divestitures, aggregates shipments decreased 1.2 percent while average selling price increased 2.3 percent.

Magnesia Specialties' third quarter net sales of \$22.0 million increased 23 percent over prior-year net sales of \$17.8 million as the Company generated increased sales from strong lime shipments, water treatment products and a new product line for the pulp and paper industry. Earnings from operations for the third quarter were \$0.8 million, down

MLM Reports Third-Quarter Results Page 5 October 30, 2003

from \$1.3 million in the year-earlier period, primarily due to higher natural gas prices. For the first nine months of 2003, net sales were \$63.9 million and earnings from operations were \$2.9 million compared with net sales of \$56.2 million and earnings from operations of \$4.2 million for the first nine months of 2002.

ACCOUNTING CHANGES:

The accounting changes include an after-tax charge of \$6.9 million, or \$0.14 per diluted share, as the cumulative effect of an accounting change related to the adoption of Statement of Financial Accounting Standards No. 143, *Accounting for Asset Retirement Obligations* ("FAS 143"). In addition, a \$1.5 million pretax expense was recorded for the nine months ended September 30, 2003, to reflect the ongoing depreciation and accretion related to FAS 143. The first nine months of 2002 were restated to reflect the charge of \$11.5 million, or \$0.23 per diluted share, recorded as the cumulative effect of an accounting change related to the adoption of Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*.

The Company will host an online Web simulcast of its third-quarter 2003 earnings conference call later today (October 30, 2003). The live broadcast of Martin Marietta Materials' conference call will begin at 2 p.m. Eastern Time today. An online replay will be available approximately two hours following the conclusion of the live broadcast. A link to these events will be available at the Company's Web site.

For those investors without online web access, the conference call may also be accessed by calling 913-981-5571, confirmation number 799732.

MLM Reports Third-Quarter Results Page 6 October 30, 2003

Martin Marietta is the nation's second largest producer of construction aggregates and a leading producer of magnesia-based chemical products used in a wide variety of industries.

MLM Reports Third-Quarter Results Page 7 October 30, 2003

If you are interested in Martin Marietta Materials, Inc. stock, management recommends that, at a minimum, you read the Corporation's current annual report and 10-K, 10-Q and 8-K reports to the SEC over the past year. The Corporation's recent proxy statement for the annual meeting of shareholders also contains important information. These and other materials that have been filed with the SEC are accessible through the Corporation's Web site at and are also available at the SEC's Web site at . You may also write or call the Corporation's Corporate Secretary, who will provide copies of such reports.

Investors are cautioned that all statements in this press release that relate to the future involve risks and uncertainties, and are based on assumptions that the Corporation believes in good faith are reasonable but which may be materially different from actual results. Forward-looking statements give the investor our expectations or forecasts of future events. You can identify these statements by the fact that they do not relate only to historical or current facts. They may use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," and other words of similar meaning in connection with future events or future operating or financial performance. Any or all of our forward-looking statements here and in other publications may turn out to be wrong.

Factors that the Corporation currently believes could cause actual results to differ materially from the forward-looking statements in this press release include, but are not limited to, business and economic conditions and trends in the markets the Corporation serves; the level and timing of federal and state transportation funding; levels of construction spending in the markets the Corporation serves; unfavorable weather conditions; ability to recognize increased sales and quantifiable savings from internal expansion projects; ability to successfully integrate acquisitions quickly and in a cost-effective manner and achieve anticipated profitability; fuel costs; transportation costs; competition from new or existing competitors; successful development and implementation of the structural composite technological process and strategic products for specific market segments; unanticipated costs or other adverse effects associated with structural composite revenue levels, products pricing, and cost associated with manufacturing ramp-up; the financial strength of the structural composite customers and suppliers; business and economic conditions and trends in the trucking and composites industries in various geographic regions; possible disruption in commercial activities related to terrorist activity and armed conflict, such as reduced end-user purchases relative to expectations; and other risk factors listed from time to time found in the Corporation's filings with the Securities and Exchange Commission. Other factors besides those listed here may also adversely affect the Corporation, and may be material to the Corporation. The Corporation assumes no obligation to update any such forward-looking statements.

(1) EBITDA is a widely accepted financial indicator of a company's ability to service and/or incur indebtedness. EBITDA is not defined by generally accepted accounting principles and, as such, should not be construed as an alternative to net income or operating cash flow. EBITDA includes the noncash charge for the cumulative effect of changes in accounting principles. For further information on EBITDA, refer to the Corporation's Web site at www.martinmarietta.com.

A reconciliation of Net Cash Provided by Operating Activities to EBITDA is as follows:

Additional Information about Non-GAAP Financial Measures Available on the Corporation's Web site

From time to time management may publicly disclose certain "non-GAAP financial measures" in the course of our financial presentations, earnings releases, earnings conference calls, and otherwise. For these purposes, the SEC defines a "non-GAAP financial measure" as a numerical measure of historical or future financial performance, financial positions, or cash flows that excludes amounts, or is subject to adjustments that effectively exclude amounts, included in the most directly comparable measure calculated and presented in accordance with GAAP in financial statements, and vice versa for measures that include amounts, or is subject to adjustments that effectively include amounts, that are excluded from the most directly comparable measure so calculated and presented. For these purposes, "GAAP" refers to generally accepted accounting principles in the United States.

Non-GAAP financial measures disclosed by management are provided as additional information to investors in order to provide them with an alternative method for assessing our financial condition and operating results. These measures are not in accordance with, or a substitute for, GAAP, and may be different from or inconsistent with non-GAAP financial measures used by other companies.

Pursuant to the requirements of Regulation G, whenever we refer to a non-GAAP financial measure, we will also generally present, on this Web site, the most directly comparable financial measure calculated and presented in accordance with GAAP, along with a reconciliation of the differences between the non-GAAP financial measure we reference with such comparable GAAP financial measure.

One such non-GAAP financial measure we may present from time to time is Earnings before Interest, Income Taxes, Depreciation, Depletion and Amortization ("EBITDA"). EBITDA is not a measure of financial performance under GAAP. Accordingly, it should not be considered as a substitute for net earnings (loss), operating earnings (loss), cash flow provided by operating activities or other income or cash flow data prepared in accordance with GAAP. However, the Corporation's management believes that EBITDA may provide additional information with respect to the Corporation's performance or ability to meet its future debt service, capital expenditures and working capital requirements. Because EBITDA excludes some, but not all, items that affect net earnings and may vary among companies, the EBITDA presented by Martin Marietta Materials may not be comparable to similarly titled measures of other companies. Martin Marietta Materials calculates EBITDA as:

Net earnings (loss) before interest expense, income tax expense (benefit) and depreciation, depletion and amortization expense. EBITDA is also before the cumulative effect of a change in accounting principle, if applicable.

The following tables present Martin Marietta Materials' reconciliations between net income and net cash provided by operating activities to EBITDA for the years 1994 to 2002, quarterly and year-to-date periods in 2002 and 2003 (all dollars in thousands):
